ABOUT ME

Results-driven Data Science Trainer and Data Analyst with 7+ years of experience in Data Analytics, Business Intelligence, and Data Science training across diverse academic and professional backgrounds. Expertise in Excel, Power BI, SQL, Python, Machine Learning, Deep Learning, and Analytics, with a strong track record of successfully training 10,000+ students through 1,000+ interactive sessions. Skilled in delivering project-based practical learning, simplifying complex concepts, and helping students and working professionals build successful careers in data-driven domains. Experienced in data analysis, dashboard development, automation, visualization, and business intelligence solutions, with strong communication, mentoring, and problem-solving abilities..

EXPERTISE

Professional Experience

Data Analyst – Seasia Infotech

2025 – Present

- **Data Engineering & Automation:** Built and maintained automated data workflows using SQL and Python for data extraction, transformation, validation, and reporting. Streamlined recurring business reports and improved data accuracy through automation solutions.
- **Data Analysis & Process Improvement:** Conducting exploratory data analysis (EDA), trend analysis, and performance monitoring to identify business improvement opportunities.
- **Stakeholder Collaboration:** Working closely with business teams, managers, and operational stakeholders to understand analytical requirements and translate them into intuitive dashboards, reports, and actionable insights.

Data Analyst – Tata Consultancy Services

2022-2024

- **Data Visualization & Dashboard Development:** Designed and developed interactive dashboards and visual reports using Power BI and Tableau to monitor business KPIs, sales trends, operational performance, and customer insights, improving reporting efficiency and decision-making processes.
- **Data Cleaning & Transformation:** Performed data preprocessing, transformation, and validation using SQL and Python to ensure high-quality and reliable datasets for analytics and reporting purposes.

Junior Data Analyst – The Core Systems

2020 – 2021

- **Data Analysis & Reporting:** Assisted in analyzing large datasets using SQL and Excel to generate business insights and performance summaries for clients across different domains.
- **Dashboard Development:** Created interactive dashboards and visual reports in Power BI to support business monitoring, trend analysis, and management reporting requirements.
- **Data Cleaning & Transformation:** Performed data preprocessing, validation, and transformation activities to improve data quality and reporting accuracy for analytics projects

TRAININGS DELIVERED

Data Analytics Trainer at Career247

Training students 350+ in Python, SQL, Excel, Power BI, Data Analysis, Statistics and Data Visualization while mentoring them on projects and conducting mock interviews.

Data Science Trainer at upGrad

Training and mentoring students and working professionals in Python, SQL, Machine Learning, Deep Learning, Power BI, and Data Analytics.

Data Science Trainer at Theta Academy and 9i Technologies in Chandigarh

Deliver end-to-end curriculum with hands-on projects and assessments.

Data Science Trainer at KAE Education, Bangalore

Deliver training in HR Analytics, Data Science, and Analytics Bootcamps.

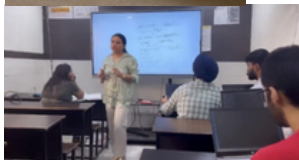

Delivered Python training at MThree, London

Delivered Python for Finance training at Juno School, covering Python programming, financial data analysis

Delivered 15+ lectures and conducted training sessions at **Chandigarh University**, **Panjab University**, and **Indo Global Group of Colleges** on topics related to Data Analytics, Python, and SQL.

I took data analytics course where we had the best trainers who trained us from scratch. I learnt a lot from Deeksha mam. I was in 25th Aug 2025 batch which ended in this month. Assignment were timely and carefully checked and given correct and suggestion for what had to be included in the coding part. I felt best as a learner.

Hi mam good afternoon.
Finally got a job!!!
I want to thank you and I am very lucky to have a teacher like you. Jisne 10th k baad laptop he nhi khola or jiska non it background ho, aapne usey ai mi sikha diya by way of your simple teaching style.
Thank you so much siram!!
