

# AKHIL AJITH NAIR

## CORPORATE TRAINER

### PROFILE

A seasoned corporate trainer & consultant with deep expertise in Python, SQL, MS Project, Databricks, Azure, distributed systems, machine learning, statistics, and probability tailored for real-world business applications. Over the past 7+ years, I have delivered 500+ high-impact training sessions to more than 5,000 professionals across Fortune 500 companies, startups, and academic institutions. My programs are designed to bridge the gap between theoretical knowledge and business-critical implementation equipping teams with practical, industry-relevant skills that drive measurable outcomes.

### TRAINING EXPERIENCE

#### Awin, France

2023-2025

- Delivered over 120+ hours of hands-on training to internal teams on key data tools and technologies, including Python, SQL, PySpark, Databricks, and applied machine learning for business use cases
- Designed and facilitated practical workshops on building recommendation systems using a live A/B test comparing KNN vs ALS, which led to a 20% increase in ad engagement.
- Trained junior data professionals on building scalable data pipelines with Spark SQL and Python to reduce latency and enhance data quality
- Conducted in-depth training sessions on machine learning, deep learning, and generative AI, helping cross-functional teams understand model building, deployment, and real-world use cases.

#### DataMantra

2019-PRESENT

- Delivered customized training programs for corporate clients, startups, and academic partners tailoring content for roles such as data analysts, engineers, business managers, and fresh graduates
- Conducted intensive bootcamps and weekend cohorts, with high engagement and measurable skill improvements — consistently rated 4.9+/5 by participants.

#### Gallagher and Mohan

2017-2018

- Provided 1:1 mentorship, capstone project guidance, and career support to over 5,000 learners, helping many transition into data-focused roles across tech, finance, and consulting domains.
- Consulted with L&D teams to align training outcomes with business KPIs and team OKRs, ensuring direct value from every session delivered.

### EDUCATION

2023 -2024

EDHEC BUSINESS SCHOOL,FRANCE

- Masters in Data Science and AI

2018-2019

UNIVERSITY OF HERTFORDSHIRE, UK

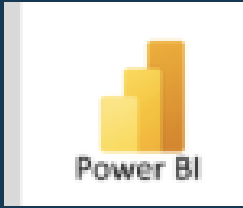

- Masters in Finance and Economics

### CORPORATE CLIENTS

- PWC - Machine Learning ,Gen AI
- EY - SQL, Power BI, MS Project
- UPGRAD - ML, Statistics, Gen AI
- EDURE - SQL, Azure, Databricks
- KPMG - Finance Analytics, JIRA
- GOOGLE - ML, A/B Testing
- DELOITTE - Deep Learning, Gen AI

### LANGUAGES

- English (Fluent)
- French (Basic)
- Malayalam(Fluent)

## Core Training Areas

- . Programming & Data Foundations
- . Big Data & Cloud Technologies
- . Machine Learning & Advanced Analytics
- . Deep Learning & Generative AI

## Training Formats

Live Virtual Workshops

On-Site Corporate Bootcamps

One-on-One Mentoring Sessions

Custom Training for Teams & Roles (Data Analysts, PMs)

## Impact Highlights

**700+ hours of live instruction delivered with a focus on real-world problem solving and practical implementation.**

**5,000+ professionals trained across India and Europe including corporate employees from tech, finance retail, and consulting.**

## Tools & Platforms Used in Training

**Python, SQL, MS Project, Databricks, Spark, Azure, Pandas, Scikit-Learn, TensorFlow, PyTorch, BERT, GPT, Power BI, Tableau**
